ArpViewer

Christoph Witzig

witzig@switch.ch

- **A tool to get user consent for «Attribute Release» and for «Terms of Use» if applicable**
- **Question asked just after Authentication**
- **Features:**
 - **Simple to use and to understand**
 - **Global consent possible**
 - **Default is to ask once for consent per Service Provider**
 - **Ask again when attribute set to be released changed**
 - **Easy integration into an IdP**
 - **Uses existing Shibboleth arp.site.xml**
- **Currently in use within SWITCHaai at 3 IdPs**
